PRESIDENTS MESSAGE

It is time again for the annual INA convention! This years convention will be held September 30 through October 2 at the Holiday Inn Downtown Convention Center in Iowa City, Ia. Ron Lashmit and his committee have been working hard to make this show another success and a good time for all that attend. There will be an award banquet on Saturday evening Oct. 1. Get your reservations in now and plan time off, if required, so you don't miss the fun weekend.

My spring and summer activities have found us at several conventions, the ANA Convention, and a visit to the mint in Denver for the First Strike Ceremony of the Olympic coin. The visit to the mint was a lot of fun and a thrill to see the first coins struck.

I hope you returned your ballot for INA officers and directors to our Secretary. By now the deadline has passed and the Secretary will have counted the ballots. The results will be announced at the general membership meeting Saturday afternoon at the convention. Check at the Registration desk for the exact time of the meeting.

I wish to thank all of you that have helped me this last two years, and thanks to those that have given me ideas and comments that can help in making the INA a fine organization in the future. I don't really feel that I have accomplished a whole lot, or been able to make any major changes, but the 50th Anniversary medal and convention will be something to remember.

The 50th Anniversary Medals will be available at convention for those that ordered theirs in advance. We ordered 100 silver and 200 bronze medals. The first 20 are numbered, all of which will be placed in the convention auction. If you have not reserved one, do it now, we should sell out!

I would like to invite all our INA Coin Club Presidents to join with the board of directors at convention at 10 AM Saturday morning for a short, general exchange of ideas and suggestions for the betterment of the INA, Coin Clubs, and the hobby in general.

Exhibitors, put that favorite group of items that you collect together and get your exhibit ready for convention!! If you have not done so by now, contact Don Harden, 5300 Kesler Rd N W, Cedar Rapids, Ia - telephone (319) 390-4741 evenings to reserve space at convention for your exhibit. He will need to know the number of cases you need, title of exhibit, and of course your name.

If you have changed your address, please advise Phyllis Pratt at P.O. Box 65356 West Des Moines, Ia. Then you won't miss your copy of the Iowa Collector. Convention is a great time to renew your INA dues, still a bargain at \$5.00/year. See Phyllis Pratt at the registration area at convention.

Is there an individual or couple that would like to be the INA Historian? If you are interested, please contact me.

See you at the Holiday Inn in Iowa City Sept 30 - Oct 2!!!

Bob Douglas - President

FORT DODGE COIN CLUB
FORT DODGE, IA.

Once again it is time for the FORT DODGE COIN SHOW. The dates are October 8 & 9, 1988. The plans are for a bigger and better show than ever, and your being there will help our plans come to be. Again we will be at the Crossroads Mall, 25th St. and Hiway 20 East. The show last year, our first at the Mall, proved to work out very well. There is shopping for the non-collecting wives, which is a drawing point to the public, as well as a well traveled area for traffic at the Bourse tables.

Set up will be at 8:00 AM on Saturday as the Mall stores open at 10, but there are many Mall walkers around earlier. We will close our show at 5 on Saturday, so you have time to take your coins to a security room if you wish. We will have full security for our tables by hired security guards. The Show will open at 10 on Sunday, although the Mall stores don't open until noon.

Dealer space- 8 ft.- will be \$20 each. Coins, stamps, Postcards, Collectibles, Baseball Cards, Antiques, and misc. will be featured.

Advantages:

- A variety of eating places
- Free parking convenient to the show
- Tables one price for 1 or 10
- More walk through traffic
- Help with advertising (the Mall advertises our Show with them)
 - We advertise in the local paper and all the other Shoppers in the area, plus all the posters displayed in a radius of 60 miles from Ft. Dodge)

PLEASE- send your reservations as soon as possible- checks may be dated October 1st if you wish.

Please reserve _____ space at the Ft. Dodge Coin Show. This space includes an 8' table and source for lights. The show is October 7 & 8, 1988 at the Crossroads Mall, Hiway 20 and 25th St.

Numismatic Collecting Guide Featuring CNG's in 1987

Remember when the thrill of a new coin discovery made numismatics so worthwhile? When you could answer an ad and get what you paid for?

It's still that way in NUMISMATIC NEWS.

Coin Market keeps you on top of today's marketplace — more than ever, as it rivals even the most sophisticated "insider" newsletter, those selling for as much as four times our annual rate.

But, we've never lost our enthusiasm for the hobby, and it shows on every page, from Burnett Anderson's Washington reports, to Alan Herbert's Coin Clinic. If you've found your enthusiasm for the hobby flagging; or if you failed to get fair treatment elsewhere. Come with us. At NUMISMATIC NEWS we believe the best is yet to come.

Symbols are used to represent the nation's political goals and to prove that these goals are made and upheld throughout the nation's development. To represent these goals, a coin is made with one or more symbols located on the obverse or reverse or on both sides of the coin. If the coin is composed of more than one symbol of the government's progress, it is called a device. (21)

Lincoln's death established the first symbol, the Four Freedoms. The presidential figures, mainly Washington and Jefferson, located on the coin symbolized the four freedoms. Lincoln had tried to establish the symbol to mean that the bust of the president was to represent his accomplishments during his term and not how much that president was worth. This was accomplished some forty-four years after his death, in 1909 (22).

The Phrygian slave's cap is another symbol which represents one side of several revolutions dating back about twenty-five hundred years. The Phrygian slave's cap is a head cover, usually rimless, which the Romans used to distinguish the citizens from the slaves. It was approved as a symbol to be used on the United States coin on April 2, 1792 under the Coinage act.

The different styles of these caps resulted in different names of each type. Three of these names are "Turban heads", "freedom of thought" and "Mercury head". (23)

Peter the eagle was a government object which lead to a symbol after his death. Peter, also known as "Peter the Mint Bird", became a symbol after 1855. Peter use to live in the Philadelphia mint and was free to leave anytime he wanted to. He lived in the mint for about six years and was very interested in the printing process. While watching the printing activities one day, Peter failed to move when the press started up. He is now sitting in a cabinet in the printing room overlooking the printing of the coins being minted. A picture of an eagle is now required on all the dimes that are minted.

The eagle that was placed on the coins looked more like a chicken than an eagle. One reason for this is the engraving and designing was done by Europeans, and they were unfamiliar with the eagle. (24)

The shield is a symbol which is used the most and tells the most about the government. The shield, also called an escutcheon, is very flattering and represents the designer's accomplishments. The shield is designed to represent several aspects of the government. The most important one is the unity between Congress and the original thirteen colonies. It is designed so that there is a blue field across the top and red and white vertical stripes, which are evenly spaced across the shield. The blue field across the top represents the Congress, and because of its location, it symbolizes the unity of the thirteen colonies established by Congress. Right below the blue field are the vertical stripes representing the thirteen colonies. The stripes, because of their location, also represent the colonies' support of the Congress. The outline of the shield represents the unity of the colonies' defensive ideas. With all of these symbols of the shield established, there is one more symbol designated by the location of the shield upon the coin. If the shield is placed on the eagle's breast, it represents the security of the United States' virtues. (25)

The stars found on the coins before 1892 were of the English heraldry, and the ones on the coins after that were of the French heraldry. The number of stars that are located on the coin represent the number of states in the union at the time the coin was minted. (26) The stars only show the thirteen colonies on the coins, though, but the flag, which has the same type of stars, shows the other states in the union.

The wreath and sprigs soften the design of the coin and add an attractiveness with a full circle of one or two stems bound by a ribbon. The wreathes can be divided into two categories. They are foliage and agricultural. The foliage is composed of one or more of the following branches: laurel, oak, palm, or olive. Out of the four types, the olive is the only one with any symbolic meaning. It means a symbol of peace in Rome.

(CONT.)

(Cont. from Previous Page)

The agricultural wreath is composed of a combination of the four major United States' products. These are corn, cotton, wheat, and tobacco. The Lincoln cent is the only coin in which only one of these is present. (27)

The arrows are the last symbol of any importance found on a coin. They represent the weapons and the American Indian's origin. If these arrows are in the eagle's right talon, they represent an inclination of the nation to become hostile. If the arrows are in the eagle's left talon, they represent the readiness for any situation threatening the peace and tranquility of the owner. (28)

Coins have had a long development just like the nation. They have gone through the problems the government had and are symbolic of these problems. The coins remind the government of its goals and therefore hold the nation together as one big unit.

AUCTION

TERMS OF SALE

1. This is a public auction and mail bid sale conducted by a licensed and bonded auctioneer. The auctioneer may open bidding at a reasonable price on each lot, usually 5 or 10% above the second highest mail bid, and may set bidding increments as he deems necessary. The auctioneer's decisions are final. In the event of a cataloging error the auctioneer will announce the correction and the lot will be sold subject to that correction. All lots will be sold in numerical sequence, bids must be for whole lots as no lots will be broken up.
2. Lots will be sold to the highest bidder, with a mail bid taking precedence over an identical floor bid. In case of identical mail bids, the earliest mail bid received will be awarded the lot. Mail bids will be treated as limits, wherever possible, depending on other mail bids and on floor action, lots will be purchased for bidders for less than the submitted bid. McKee Coins reserves the right to refuse any bid not felt to be made in good faith. Bids for a small fraction of the catalog estimates may or may not be honored.
3. Grading, which is subjective, and other adjectival descriptions are the opinion of the cataloguer and no warranty, expressed or implied, is made since these opinions can and do vary among experts. No lots may be returned by mail bidders without advance written permission and any request must be made within 3 days of receipt of the coins. Any coin removed from the original holder is considered sold!
4. All sales are strictly for cash in United States dollars, drawn on a United States bank or via United States World Money order. Anyone wishing to purchase lots with the use of a Mastercard or Visa will be charged a 6% handling fee in addition to sales tax, postage, & invoice. Credit cards will only be accepted on mail bids.
5. Floor bidders are expected to pay for and pick up their lots the day of the auction.
6. Shipping, handling, insurance and registration charges will be added to invoices delivered by mail. Mail bidders will receive an invoice detailing their successful bids and shipping charges. Payment must be made within 5 days of receipt of notification and lots will only be mailed after payment in full has been made.
7. Bids made on behalf of corporations must be personally guaranteed by one or more of the principals. Each bidder is personally responsible for his bids; he cannot claim to act for a third party.
8. A finance charge of 1 1/2% per month (18% per annum) will be added to all invoices unpaid after 15 days from the date of the auction. There also will be a one time charge of \$10 for items held over 30 days to cover clerking and filing fees. The buyer is responsible for attorney and other judicial fees and expenses involved in collection of outstanding invoices.
9. Bidders unknown to McKee Coins must establish references prior to the auction, or deposit 25% of the bids submitted in the first sale. This deposit will be applied to the success bids, with overage refunded and differences billed.
10. Foreign bidders are responsible for customs or other regulations. Errors in bidding are the sole responsibility of the bidder; mail bidders should check their bid sheets carefully. The accompanying estimates are for general guidance only and are not limits or reserves, actual prices may exceed or be only a fraction of these estimates.
11. The numbering system and catalog values on general issue U.S. Currency have been borrowed from the Krause-Lempke reference guide. The numbering system and catalog values on National Currency and Iowa Obsoletes were obtained from Dean Oakes and John Hickman's guides on the subjects. Information used on Foreign banknotes comes from Albert Pick's catalog. "C.D.N." where used comes from various issues of this year's Coin Dealer's Newsletter Bid price. Other estimates are based on my experience and should prove to be a fairly accurate consensus of the market.
12. Iowa 4% sales tax will be added to all invoices, unless the coins are shipped out of state or sold for resale to a dealer with a valid sales tax permit. Certain Estate & Conservatorship sales are also exempt.
13. No buyer's charge will be added, so bid your full amount.
14. Bidding in this auction, whether by mail or in person, constitutes full acceptance by the bidder of the foregoing terms of sale.

EDITORIAL

Well here we are again at Convention time. Once again I am struggling to keep ahead of all the work involved in putting on auctions and preparing the "Iowa Collector" for your enjoyment.

We are going to have a great convention. Displays, a Token auction, an evening coin auction, a banquet... Wow! Lots and lots of great things are happening. I sure hope to see you there.

Now... that I have told you about all the great things going on. It is complaint time. It was only a month or so ago I received a letter requesting nominations for officers. I thought how exciting! A new slate, a terrific boost of enthusiasm, all the thrust and momentum to launch us into the next half century of coin collecting. Then a couple weeks ago I received my ballot. There it was, Deja Vu, wammo, the same old thing we are seeing in our National elections this fall. A choice without a choice. For President, one choice; First Vice President, one choice; Second Vice President, one choice; and so on and on all the way through the ballot. It almost made me sick. My first thought was I wanted to throw my ballot in the waste can and I probably would have done so had it not been for that long ago echo in my ear from my political science teacher. He said it takes everyone together to make a difference and the worst thing for society is political apathy. We must be activist to make a difference.

The solution. Let's all go to the state convention and participate. Attend our local coin clubs and become involved. Run for office and seek to improve that office once you attain it. Start your son or daughter now and help them to become self starters. Coax them into a bubbling excitement and let that excitement spill over on to there friends. Ask them to invite their friends to come and participate in what we know as an educational experience and they believe is exciting fun. Visit your local dealer he is beginning to think that he is a Maytag repairman and he needs you a lot more than you need him. But, when he is gone you will have missed the opportunity to attend an exciting exploration into history and the future, into metallurgy and physics, into mechanics and the people of the world.

Now, I have myself smiling again. I can't wait until I get to Convention. Maybe Richard Trytten will introduce himself to me. New faces, new thoughts, and lots of enthusiasm is what we need to last another fifty years. I wonder how much are hobby will change by 2038?

Your Editor. Owen McKee.
